Drive change into the future

Speaker: Andries Keun, Managing Director of Thomas International Africa

Join us at the October HR Networking Breakfast to hear a case study showing how you can both measure and manage your organisation's capacity to deal with this VUCA world in which we do business.

During the session, the following questions will be addressed:

- How do you measure your readiness for change?
- What role does Human Capital analysis play in the change process?
- How do you prevent management from running away from the rest of the organisation?
- How do you ensure that change is managed in such a way that every employee keeps up?
