### Learning agility - what we know about this most critical attribute for potential

**Speaker:** Agustina Mendez, Head of Expertise: Korn Ferry Hay Group South Africa

Learning Agility is a top predictor of high potential. In fact, highly learning agile people get promoted at double speed and are five times more likely to be highly engaged. At this HR Future breakfast, Agustina will zoom into Learning Agility to examine what it is, how we can measure it and how people can develop it. She will explore research and look at how other organisations are using this concept to measure and advance potential in their people.

Get great insights, ideas and tips from Agustina so that you can effectively address Learning Agility in your company!
